## **Purpose**

The Execution Quality Summary Statement (hereinafter the EQSS or the Statement) is a statement that IFC Investments Cyprus Ltd (hereinafter, the “Company”), an Investment Firm authorised and regulated by the Cyprus Securities and Exchange Commission with Licence Number 327/16, is required to disclose to its clients under Regulation EU 2017/576 of 8 June 2016 supplementing Directive 2014/65/EU of the European Parliament and of the Council with regard to regulatory technical standards for the annual publication by investment firms of information on the identity of execution venues and on the quality of execution.

The EQSS is a summary of the analysis and conclusions the Company drew from its detailed monitoring of the quality of execution obtained on the execution venues where it executed all client orders during the year 2020, covering a full year cycle (hereinafter, the “Year Under Review”).

The Company urges its clients and/or potential clients to read the Statement carefully as it contains information on how the Company executes orders to various execution venues when offering services related to Execution of Client Orders /Reception and Transmission of Client Orders / offering the investment service of Portfolio Management in relation to the Asset Class of Stocks.

The EQSS along with the accompanying tables will remain on the Company’s website for two years at least post its publication.

The Company considers that when it *Receives a Client Order and Transmits it for Execution* it is simultaneously offering RTO and Execution services in tandem. The Company does not consider that there is any possibility based on its business whereby it will offer clients RTO services only without Execution. The same considerations presented hereunder apply also for the service of portfolio management.

The Company during the Year Under Review deployed a number of methodologies and tools in order to monitor, and where applicable adjust, its execution parameters in order to ensure consistency with its overarching obligation to offer the best possible result for its clients' orders. In broad terms the Company monitors on an ongoing basis its execution arrangements by selecting appropriate samples of orders executed and evaluates the samples in accordance to the following dimensions:

- (a) Evaluating the Company's execution venues/facility in accordance to the following:
  - Pricing Frequency (price updates in real time);
  - Speed of execution;
  - Frequency and duration of price freezing;
  - Depth of liquidity;
  - Pricing transparency;
  - Slippage frequency etc.
  
- (b) Price Fairness by comparing independent prices relayed by independent market data providers with the prices quoted by its execution venues/facility, as well as comparing prices between execution venues not listed in the company's execution venues list. For this purpose, the Company has subscribed to independent price aggregators (such as Bloomberg, Thompson Reuters, etc.) and uses quarterly reports published by other Execution Venues that trade similar or identical financial instruments with those offered by the Company.

- (c) Technological prowess of Company systems (responsiveness of interface, lag, integration with the IT systems of the execution venues etc.).
